

Dear Rory,

My mother SB attends Newent House. Being disabled, it is a lifeline for her and something she looks forward to all week. She loves the staff and the other people who are at the centre. At the moment she is very concerned about the future of the centre and has asked me to write and find out what is happening. I am, in fact, living in Perth Western Australia, but get over a couple of times a year to visit and have been to Newent House and think it is a very welcoming and warm place. I would really appreciate an update from you on the situation to hand. Thank you, Yours sincerely,

PP
