To whom it may concern

I would like to register my concern along with my sisters DD and SS as to the situation and threat to the possible closure of Hobkirk Day Centre. Our mother IJ has attended the centre regularly and made many friends. I have always sung the praises of the dedicated staff and its existence has been our family's salvation in seeing how our mother's welfare, health and happiness has continually improved with the daily routine at the centre. In our case with mother's dementia it would be catastrophic to change her routine as I am sure it would be for other families. If there is anything we can do to help save this situation please don't hesitate to let me know.

Yours faithfully

V L
