Working together for a safer London

- **Make sure you lock your front and back doors properly, even when you are at home.**
- **Don't put the presents under the tree until Christmas Eve, and if you do, do not leave wrapped presents in view from windows.**
- **Don't hide expensive presents and other goods in sheds or garages.**
- **Be especially careful when disposing of packaging for expensive presents. It would be a good idea to take any large boxes for recycling yourself if you are able.**
- **Make a note of the serial numbers of new electrical equipment and the frame numbers of new bicycles and then register them for **free** at [www.immobilise.com](http://www.immobilise.com)**
