

DAY CENTRE CLOSURES.

It has been brought to our attention that Newent House day centre and Hobkirk House may be facing closure due to budget cuts. This will have a devastating effect on our elderly folk, who are very dependent on the facility's which are available at these centres. These centres offer companionship for those living alone without a family to support them, hot meals, warmth and a team of very caring and dedicated staff, in fact an invaluable lifeline to all who use these centres. We hope you will reconsider these closures and listen to us the people who need these facilities.
