

Save Newent House Day Centre

For over 10 years Newent House Day Centre has provided an essential service offering 50 places daily, 7 days a week through out the year, to local older people with high care needs. Now due to financial constraints. Kingston Council is proposing to close either Newent House or Hobkirk House in New Malden and merging the service on to one site. Keep Newent House open to continue serving the community with this unique essential service
