## Exciting News!

Funding has now been secured to build a brilliant, state of the art, and innovative centre on the existing site. The new building will be home to a much needed, larger Library, which will offer a greater range of services and facilities to cater for the growing number of Library users.

The building will include a café, IT learning centre, youth facilities, a small community hall and toilets.

## Building Plans

Detailed plans will be available for public viewing in the Library in the near future.

## Library

The existing Library and Community Hall will be closed as of the 1st February 2005 ready for site clearance.

We are currently in the process of locating a temporary premise to re-house the Library whilst the new building is being built.

As soon as we have details of our new site we will let you know.

We will need to close for approximately two weeks to allow us to transfer the books and equipment from Hook and Chessington library to the temporary library.

Hook and Chessington Temporary Library will open during February 2005. Our next News Update will give further details.

## To Our Library Users

We would like to take this opportunity to thank all our readers and Library users for your continual support and understanding.

For further information please contact Antonio Rizzo (Lifelong Learning Manager) on 020 8547 6421 or the Michaela Newman (Library Manager) on 020 8547 6480.
