### **Introduction**

---

The common assessment framework (CAF) is a standardised approach to assessing a child or young person's needs and deciding how these needs should be met. The CAF will promote earlier identification of additional needs, and is meant to be a process which would benefit those working with children accessing universal services. It is intended to provide a simple process for a holistic assessment of needs.

### **Core Service (Centrally Funded)**

---

Delivery of three separate training sessions, throughout 2008, around the common assessment framework, delivered to a multi-disciplinary group to provide maximum value to the aims of the training.
