Actuarial Valuation of the Fund

The arrangements for the 2016 triennial actuarial valuation started during the year. In February 2016, the Panel received a presentation from the Fund's actuary. This provided background to the approach, timetable and outcomes from the process.

Scheme Administration Team

The team is responsible for the administration of the Pension Fund which is part of the Local Government Pension Scheme (LGPS).

If you have any questions about Scheme Administration you should contact the Pensions Team. They can also supply you with copies of any of the Scheme's official documents.

A shared Pensions Administration service with the London Borough of Sutton, hosted by Sutton, went 'live' in April 2016.

The Team's web pages can be found on the RBK website <http://www.kingston.gov.uk/pensions>

Further information about the Local Government Pension Scheme can be found on the LGPS website. Additional information can be found on the Local Government Association (LGA) website, including a number of useful guides to the scheme. The LGA represents employers' interests to central government and other bodies on local government pensions policy.

The Pension Board

In line with Public Service Pensions Act 2013, and the Local Government Scheme, the Board became operational from April 2015. The Board is not a decision making body – its remit is to assist RBK in carrying out its functions as the “administering authority” for the Fund by scrutinising the approach and governance of the decision making process.

INVESTMENT POLICY and PERFORMANCE

The Fund's current strategic asset allocation was approved by the Panel in December 2014. In June 2015 the Panel also endorsed the introduction of tolerance ranges around the Fund's strategic allocation with an appropriate rebalancing policy (excluding property – due to allocation size and illiquidity).

Below is a breakdown of the current strategic asset allocation, the permitted ranges for the re-balancing policy, and the actual asset allocation of the Fund at 31st March 2016. It shows that the Fund's asset mix is consistent with the investment strategy agreed by the Pension Fund Panel with a small balance of cash held for liquidity purposes.
