## Introduction

The Kingston and North Kingston Neighbourhood Community Plan has been developed to help inform local decision making, in particular, decisions relating to the award of the Kingston and North Kingston Neighbourhood Committee's Community Grants Programme. The plan includes ideas submitted to the Council during engagement undertaken in 2019/20. These ideas were subsequently reviewed and prioritised by local community volunteers in February 2020. These ideas and priorities have been used to develop the outcomes set out within this plan.

Further engagement was undertaken in February 2022 as part of the seizing the moment research and engagement project and more recently as part of the Local Plan consultation. The feedback received during these consultations supports the aspirations and the feedback captured during 2019/2020.

New ideas are always welcome and the plan will be reviewed annually by the Kingston and North Kingston Neighbourhood Committee at the start of each municipal year. During this review, the Committee will be given an opportunity to amend the existing plan as well propose new additions based on:

- feedback received from the Community during the previous year
- ideas, needs and priorities identified through resident engagement

Underneath the Community Plan sit a range of core council strategies and plans which capture other important activities not set out in this Community Plan.
